# General Information

**Sixty years of Mesopotamia  
group establishment**

**Number of conducted projects:  
74 Projects**

**Number of Permanent Group  
Employees: 62 Employees**

**Group Working Capital: 5,847,896 \$  
2014 Group Turnover: 18,236,415 \$**

**Group Trademarks:  
Honeywell, HIMOINSA, ABB, GE  
ENERMOVE Progetti, Invensys  
Flowserve, EATON, Feam, BG, BLT**

**Mesopotamia Group obtained ISO  
9001:2008 Certification in Jan 2015.**

**Correspondent banks:  
Commerz Bank – Blom Bank  
TBI – Ashur**

# • VISION:

With our motivated staff we want to create ultimate value for our customers by advanced products and integrity engineering service solutions as the undisputed leading supplier most reliable and competitive.

A construction worker wearing a blue long-sleeved shirt and an orange hard hat is looking at a large set of blueprints. He is standing on a construction site with various steel beams and structures visible in the background. The scene is brightly lit, suggesting an outdoor or well-lit indoor environment.

# • MISSION:

Our mission is to provide quality, integrated Oil & Gas services, power & electricity solutions like (power generators & Kiosk substations), using safe, cost- effective, and cutting edge technology to deliver optimum value to clients.

## ● ABOUT MESOPOTAMIA GROUP:

Over than sixty years have passed since the establishment of Mesopotamia Group, with each day; our visions and goals are growing even more hoping to meet the highest standards of excellence through hard work and professionalism.

All throughout this time, our policy has been to provide the Oil & Gas systems to the IRAQI & Middle East along- side with professional experience to supply, design, install and maintain these systems, whether through our local branches in Baghdad, Basra, Kirkuk or our branches abroad in Amman and Dubai.

Mesopotamia Group obtained ISO 9001:2008 certification in Jan 2015. Building on this certification, we will keep achieving our aims for continuous higher levels of quality and clients' satisfaction.

Today Mesopotamia Group is witnessing an outstanding growth on both managerial and technical levels so it can adhere to the economic development of Iraq.

As a multi-Disciplinary Organization, Mesopotamia Group provides different services covering Engineering services, Procurement, Construction, Management and many other Services.

To ensure the continuity of achieving our above mentioned aims, we continuously thrive to improve quality and fulfill highest levels of customer satisfaction, we proudly have placed a high priority on acquiring and retaining qualified staff, with a wide range of experience in Oil sector, Civil Electromechanical engineering, Road construction, logistics and skilled craftsmen are at the heart of this practice.

Finally, we aspire to always be the pioneers in this field and to meet all market requirements.

# • SERVICES:

## Environmental Technology & Energy application

Mesopotamia provides a full spectrum of world-class operation and maintenance services that include the water and waste water treatment systems, distribution and collection. The company manages such projects with a view for optimizing asset use and their overall life cycle and commitment to continuous and reliable operations. It also renowned for its customer service excellence with sustainability, energy efficiency and cost effectiveness at the heart of what it offers. The company follows a comprehensive business model that enables it to better manage customer service and their expectations. The support team is all technically endowed and an in-depth understanding of the industry enabling them to provide prompt and efficient assistance.

# • ENGINEERING:

## OIL AND GAS:

Mesopotamia Group provides a diversified distinctive oil and gas design as an efforts of expert engineers with an extensive experience of various processes like LPG, Oil tanks, Pipe lines, Degassing station, Pumping station, Blow down system, Control & instrumentation..... etc.

A worker wearing a blue long-sleeved shirt, orange safety vest, white hard hat with a logo, and blue gloves is working on a large red industrial tank. The worker is focused on the task, and the background shows industrial equipment and structures.

## • LPG STORAGE HANDLING PROJECTS:

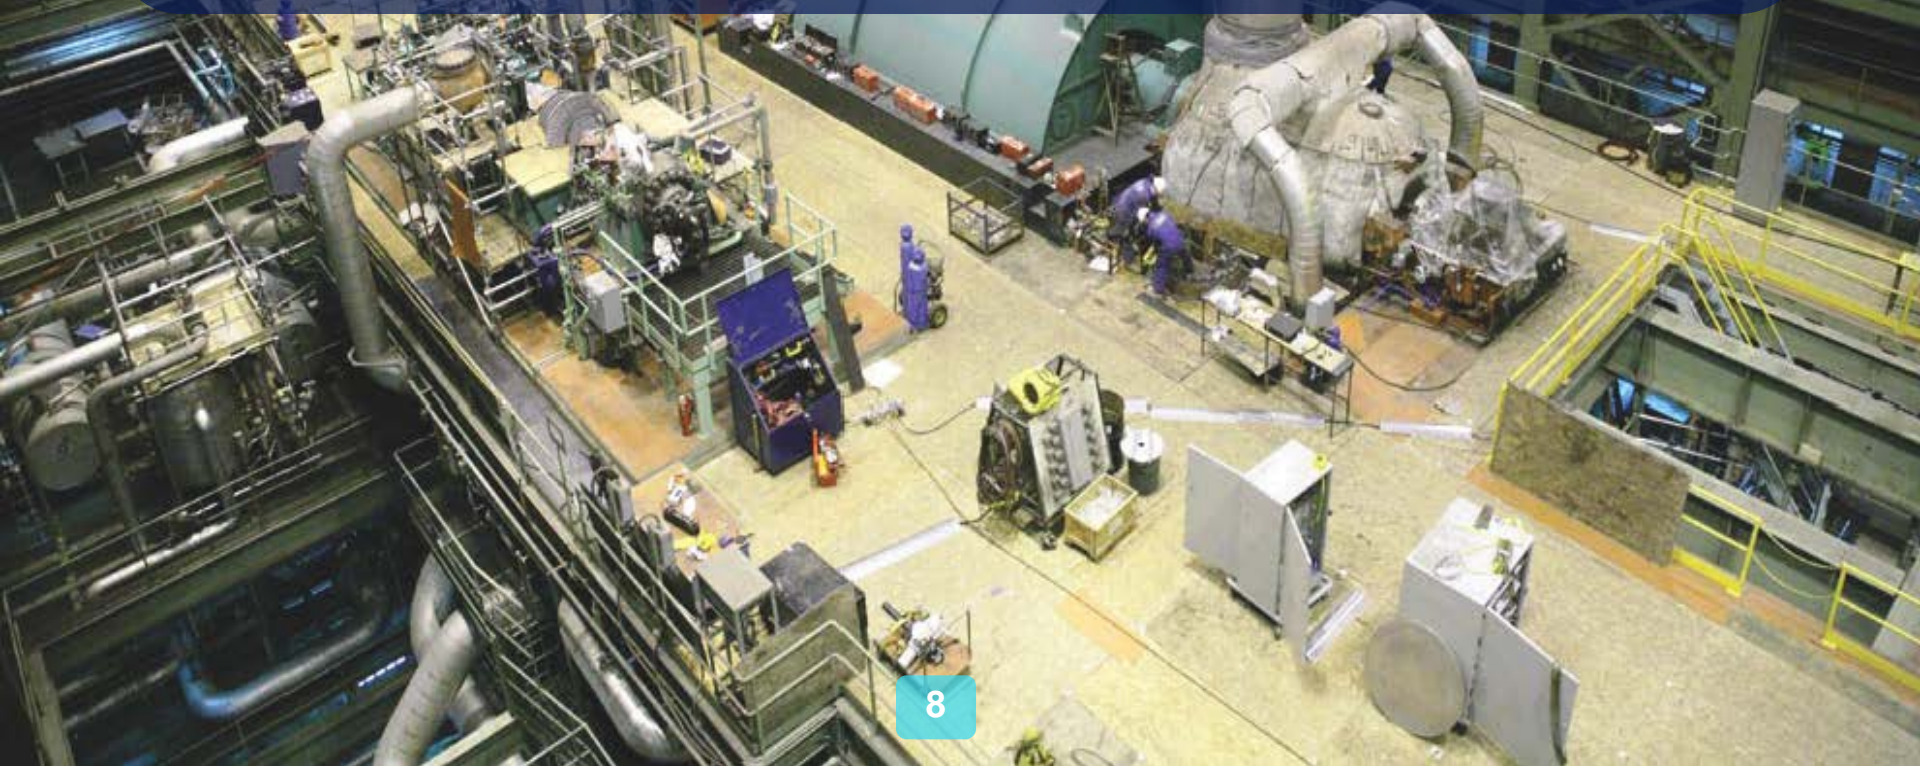

Mesopotamia Group provides a diversified range of designing LPG systems. We proudly came up with a very professional design with all needed technical process and instrument diagrams, project philosophy, design drawings systems and equipment inside the station.

Our LPG services include three projects that considered as a real step forward for Mesopotamia Group and a huge gain in the market share. These projects were delivered in 2011, 2012 & 2013 and covering 10 LPG stations.

## • ELECTROMECHANICAL:

Mesopotamia Group has extensive Electromechanical experience developed over our sixty years of Mechanical design of trunk pipeline including all instrumentation control systems, Mechanical design and material selection of crude and products of tanks, flow tanks, piping, firefighting system, SCADA system, Scraper trap, Gas Pressure Reduction..... etc.

## • PROCUREMENT AND LOGISTICS:

Mesopotamia Group has proven that our experienced procurement team work best being part of a unique team with our Client. This leads to open communication and rapid solutions to any project. And to source just about anything ever needed on a project whether Materials, Equipment or Systems. Leveraging our regional and international procurement resources networks. In addition secure competitive pricing for our clients and carry out all logistics management.

For many years Mesopotamia Group has been a leading Company in the supply of equipment and materials according to international standards to meet our customer's specific demands. In coordination with our assurance Quality (AQ) and Quality Control (QC), our procurement team covers the contract and customers' needs for each project in addition to arranging inspection of testing of equipment, materials and the necessary adjustments. Mesopotamia Group logistics team manages the transportation and dispatching of materials and equipment from factories to project sites that complies with international standards and high quality service delivery that meet customer satisfaction.

# • LOCAL MARKET:

Through its extensive experience for more than sixty years in the local market, Mesopotamia Group has gained a wider market share for various brands that continually grows. Mesopotamia Group expands its services to the growing number of customers to meet their demands through excellent combination packages of competitive prices, high technology, quality products (lighting, wirings accessories, generators, electrical tools chemicals materials), In addition to that Mesopotamia Group maintains a level of stock in Iraq ready-made for immediate supply as response to the continuous demand for most of the above mentioned products.

## • ROAD CONSTRUCTIONS:

Mesopotamia Group has successfully completed a range of large-scale road projects. And this is due to that it owns asphalt plant 120 ton/hr. located in Baghdad and equipped with advanced necessary machinery such as paver finishers, Rollers Crushers...etc., this affords us excellence in the performance of road construction and crude oil tank bases as we successfully achieved many vital projects in Iraq.

## • GENERAL SERVICES:

Since we are the only one and the exclusive Representative of the Belzona inside Iraq. Mesopotamia Group has a certified crew who has the full ability to provide the filling & coating applications for the tanks, pipes flaws and heat exchangers and any equipment may be affected by corrosion and erosion.

Belzona is a British company established in 1952, which is the global designer and manufacturer of repair composite materials and industrial protective coatings.

Our creative & professional staff is fully responsible of the designing, supplying and installation of the dynamic LED lighting systems, such as what we have done Creativity in the Ninawa bridge project addition to the Manawi Basha Hotel in Basra.

Repairing live leaks in kerosens pipe line  
Kirkuk branch

Repairing live leaks in floating roof tank  
(S.O.C)

Repairing live leaks in floating roof tank  
(S.O.C)

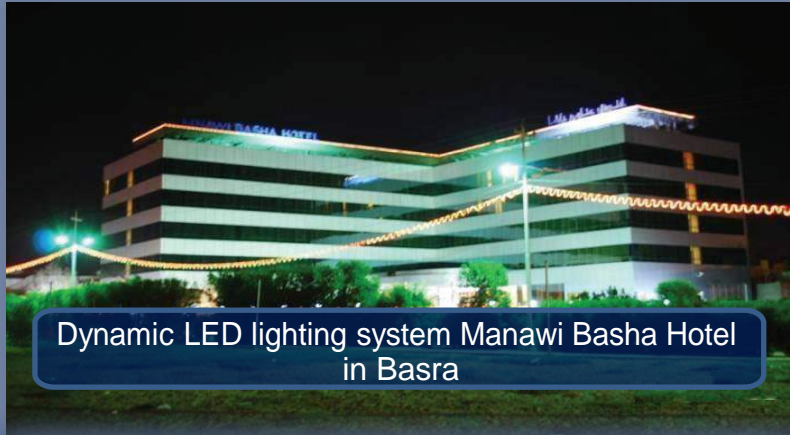

Repairing internal bottom of flow wash tank in  
Rumaila /BP

Repairing internal bottom of flow wash tank in  
Rumaila /BP

Dynamic LED lighting system Manawi Basha Hotel in Basra

Supply of external lighting for Karbala Depot Tender No. 35 / 5295 / ER / L1

Dynamic LED lighting system Ninawa bridge in Mosul

Construction of fuel tanks' basements / ORASCOM

Road construction /NRC

**\* Reference List Last 7 years:**

Item	Description	Client	Date
1	Designing and supplying of ex-proof lighting fixtures & electrical materials	SOC	2007
2	Supplying of couplings for pumps	SOC	2007
3	Designing & supplying of lighting system & materials (fitting, lamps)	BED	2007
4	Road construction and rehabilitation process	NRC	2007
5	Fully integration of supplying management including materials, inspection, supervision & rehabilitation for demi water plant	MRC	2008
6	Integral application for various types of coating materials and supervision on the application procedures	MRC	2008
7	Intensive training courses for the latest coating technology in the world & the application procedures for such technology	NRC	2008
8	Supplying of various types of coating materials & supervising on the application procedures	NRC	2008
9	Designing and supplying of lighting Control Gears & Lamps system for street lighting	BED	2008
10	Rehabilitation & protection different mechanicals systems and parts (Shafts, Compressors) by filling & coating materials	SFC	2008
11	Rehabilitation & protection different mechanicals systems and parts (Shafts, Compressors) by filling & coating materials	DPS	2008
12	Rebuilding and protecting different mechanical parts (river water intake pipes) by filling & coating materials	SBGPS	2008
13	Designing & supplying of elevated steel tanks with 1300m3 shell vol.	MISHKHAB WTP	2008
14	Road construction & rehabilitation processes	NRC	2008
15	Intensive training courses for the latest coating technology in the world & the application procedures for such technology.	SOC	2009
16	Intensive training courses for the latest coating technology in the world & the application procedures for such technology.	NRC	2009

Item	Description	Client	Date
17	Supplying of various surface coating materials and supervising on the application procedures	NRC	2009
18	Designing and supplying of lighting fixtures & electrical materials	BED	2009
19	Supplying of various surface coating materials and supervising on the application procedures.	MRC	2009
20	Designing & supplying of ex-proof lighting fixtures & electrical materials	MRC	2009
21	Supplying & installing of electrical L.V control systems	MRC	2009
22	Designing & furnishing of lighting & electrical materials	SOC	2009
23	Designing & supplying of MV electrical motors	SRC	2009
24	Designing & supplying of various types of coating materials	NOC	2009
25	Rehabilitation Sulphur Conveyer Belt by filling & coating materials.	NGC	2009
26	Rehabilitation & re-Building the shafts & casing of 50 mud pumps by filling & coating materials	IDC-BASRA	2009
27	Arranging successful test trials for repairing 24" Crude oil L/P of up to 1200 psi by using cold welding technologies.	NOC	2009
28	Repairing leaks in crude oil pipes by filling & coating materials to maintain the operating pressure of the Pipes	PLC	2009
29	Road construction process & rehabilitation	NRC	2009
30	Supplying of Diesel Genets with training programs and supervising on the installation	NRC	2010
31	Supplying of EX-Proof lighting fixtures and electrical materials	NGC	2010
32	Supplying of different types & quantities of pressure gauges	NOC	2010
33	Supplying of camera inspection systems	NOC	2010
34	Repairing live leaks floating roof of Zubair crude oil tanks by filling & coating materials	SOC	2010
35	Repairing & protecting housing of different types of pumps by filling & coating materials	SFC	2010
36	Repairing and protecting Demi water Pumps by filling & coating materials	DTPS	2010

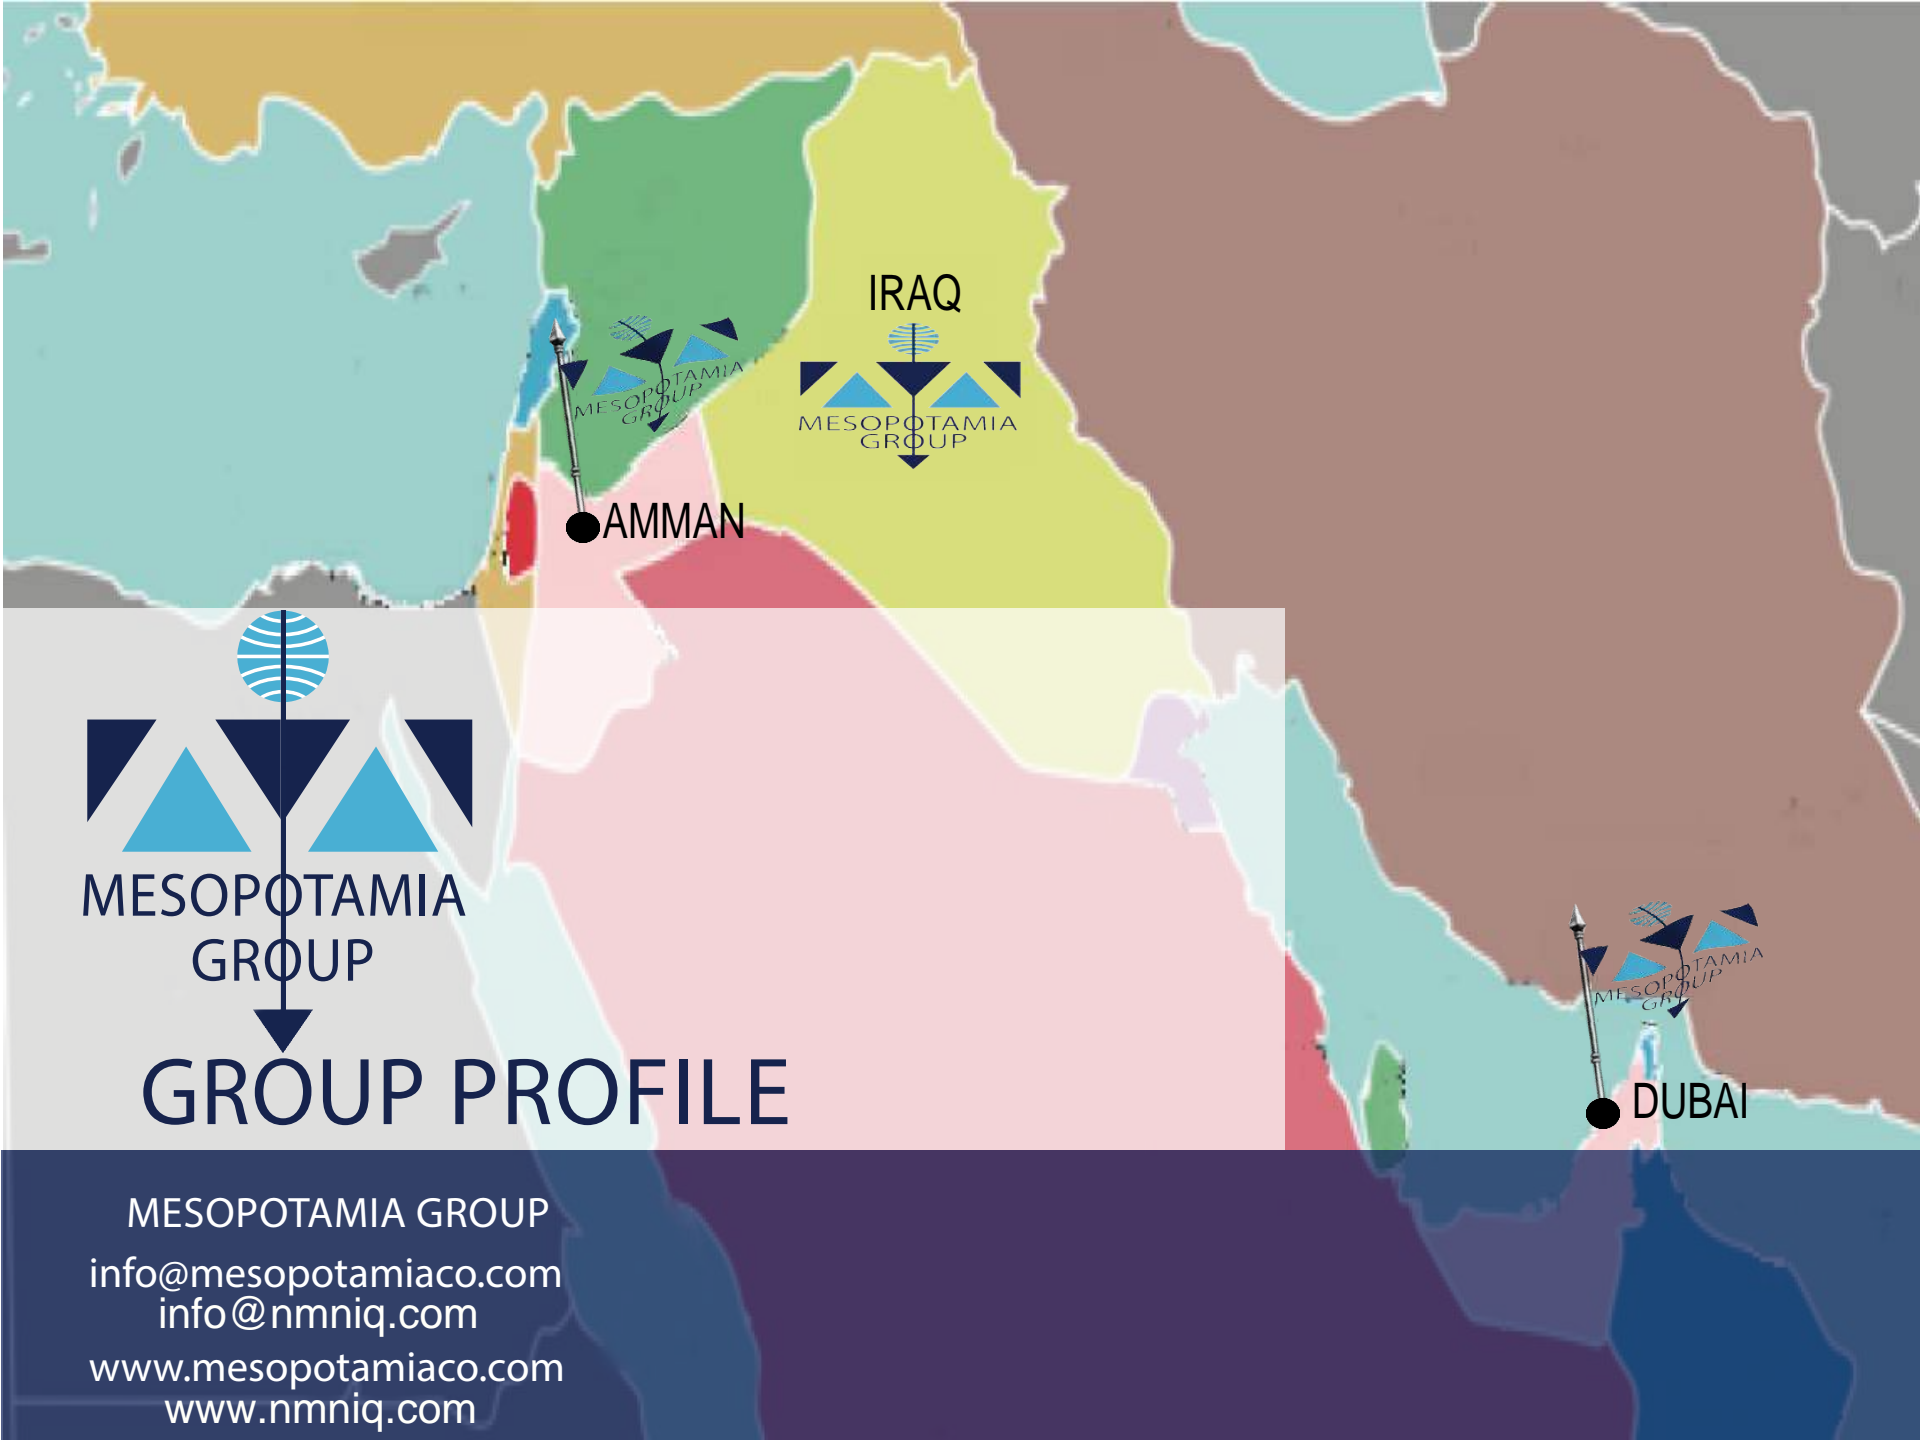

Item	Description	Client	Date
37	Repairing and protecting gas bottles loading area by filling & coating materials	GFC	2010
38	Repairing and protecting river Intake Pumps by filling & coating materials	SRC	2010
39	Repairing and protecting heat exchangers by filling & coating materials	NRC	2010
40	Road construction process & rehabilitation process	Minis. of Municipality and public works	2010
41	Supplying of different types of MV switch gear system	NRC	2011
42	Expansion and handling of LPG storage capacities for (Hilla, Rusafa & Nassiriya) stations	SCOP	2011
43	Designing and supplying of lighting fixtures & electrical materials	MRC	2011
44	Road construction and rehabilitation process	Minis. of Municipality and public works	2011
45	Supplying of 3.3 KV motors	NOC	2011
46	Supplying of filling & coating materials for repairing and protecting internal flow wash tank base	BP	2011
47	Supplying & installing of lighting fixtures and electrical materials towers	SCOP	2012
48	Designing & supplying of EX-Proof lighting and electrical materials	NOC & MRC	2012
49	Supplying & applying of filling & coating materials to repair & protect different type of Vessels	PETROFAC /BP	2012
50	Supplying of 3.3 KV motors	MRC	2012
51	Dynamic LED lighting system Ninawa bridge in Mosul	NEDD	2012
52	Supplying of various types of coating materials	SHELL	2012
53	Road construction & rehabilitation process	Minis. of Municipality and public works	2012
54	Dynamic LED lighting system Manawi Basha hotel in Basra	Manawi Basha Hotel	2012
55	Supplying of filling materials	MOC	2012

Item	Description	Client	Date
56	Designing & supplying of EX -proof push buttons with ammeters	MRC	2012
57	Designing & supplying of lighting fittings and spare parts	MRC	2012
58	Supplying chain of different types of filling & coating materials	MRC	2012
59	Supplying of various types of electrical lighting fixtures with spare parts	NOC	2012
60	Supplying of filling materials	NOC	2012
61	Supplying of different types of filling & coating materials	OPDC/ Salahdin	2012
62	Engineering design and supply for Mechanical, Electrical and instrumentation for expansion of LPG Storage Capacities at (Hamam Al-Alil ,Najaf, Rumadi, Latifah, Abu Graib and Aumarah) sites	SCOP	2012
63	Supplying of different types of filling & coating materials	SOC	2012
64	Construction of fuel tanks' basement / ORASCOM	ORASCOM	2013
65	Expansion and handling of LPG storage capacities for Karbala Station.	GFC	2013
66	Designing & supplying of electrical materials ( Medium Voltage Switch for Boilers & Demi Water Plant)	MRC	2013
67	Designing and supplying of ex-proof emergency lighting fixtures & electrical materials	MRC	2013
68	Supplying of different types of filling & coating materials	MRC	2013
69	Supplying of different types of filling & coating materials	NOC	2013
70	Supplying of different types of filling & coating materials	SOC	2013
71	Construction of Electromechanical, Instrumental, & PLC for Plant (WWTP), with pumping pumping stations for Baiji district	Minis. of Municipality and public works	2012 2013 2014
72	Supplying of different types of filling & coating materials	MRC	2014
73	Supplying of different types of filling & coating materials	NOC	2014
74	Designing & supplying of Ex-proof lighting poles with fixtures and junctions boxes	SCOP	2014
75	Designing & supplying of 150W, 36W LED lighting fixtures & 2000WMH fixtures	SCOP	2014
76	Designing & supplying of (4x16mm) (CU/XLPE/PVC/AWA) power cable	SCOP	2014
77	Designing & supplying of 32W LED Ex-proof lighting fixtures	MRC	2014
